FINAL WARNING GIVEN PANAMA

Told That Time Has Arrived To Vacate Territory

AWARDED TO COSTA RICA

Hughes' Note Made Public—Declares "Reasonable Time" Granted For Complying With White's Award Has Expired.

Washington.—The State Department has served an ultimatum on Panama notifying her the time has arrived to vacate the territory awarded to Costa Rica by the arbitral decision of the late Chief Justice White.

A battalion of marines entrained at Quantico for Philadelphia, where they will board the United States battleship Pennsylvania bound for the Panama Zone.

The movement of marines toward Panama is shrouded in secrecy but enough is known to make it plain that unless Panama peacefully surrenders the territory American force will eject her troops. It is not believed the exercise of force will be necessary. It is the hope of this Government that the presence of superior American arms will be sufficient.

Text Of Hughes' Note.

Following is the text of Secretary Hughes' note:

"The Government of the United States has received the note addressed by the Government of Panama on August 6.

"After the most careful consideration of the statements contained in the note of the government of Panama above referred to, this Government has reached the conclusion that the arguments advanced in this communication have already been fully answered in previous notes. It is greatly regretted that it has proved to be impossible for the governments of Panama and Costa Rica to come to a direct agreement for the delimitation of that portion of the boundary between the two republics laid down by the White award. In view of the fact that the government of Panama appears unwilling to carry out this delimitation in the manner provided in the Porras-Anderson convention and inasmuch as a reasonable time, mentioned in the note of this Government dated May 2, 1921, for the reaching of an agreement as to the manner of carrying out this delimitation, has already been afforded, there would seem to be no reason why the Government of the United States should, as the friendly mediator between the two Governments or by virtue of its special relations to the Government of Panama, feel compelled to suggest to the Government of Costa Rica that it delay longer taking jurisdiction over the territory which is now occupied by Panama and which was adjudged to belong to Costa Rica by the terms of the Loubet award.

"The Government of the United States is now advised by the Government of Costa Rica that since it considers that the Porras-Anderson convention is in force, and since it believes that there is no valid reason for delaying its complete execution any longer, it is ready to assume immediately the jurisdiction over the territory above referred to."

STOLE $100 000; TO RETURN IT.

Insurance Clerk Has Pelf Hidden In Safe Deposit Box.

New York.—Arthur E. Ollson, $50-a week clerk, who stole $100,000 from the Metropolitan Life Insurance Company by forging a check, promised in court to return the money, none of which, he said, had been spent. He will not play a tip on the stock market, which, he said, was the purpose of the theft. After pleading guilty he gave information to the company as to a safe deposit box and said his wife was on the way with the key from Stamford, N. Y., where he had been arrested while on a vacation. The case was continued.

UNITED STATES SHOULD AID.

Farmer-Labor Party Secretary Writes Davis His Views.

Chicago.—Jay G Brown, national secretary of the Farmer-Labor Party, announced he had written Secretary of Labor Davis suggesting that the nearly 6,000,000 unemployed could be given work by reducing the hours of work in various industries. The Government, according to Mr. Brown, should start the move and care for its share of the unemployed by shortening hours in governmental offices.

$240,450 TO WATCH PACKERS.

Harding Asks That Much Under Control Act.

Washington.—An appropriation of $240,450 for the Secretary of Agriculture to make effective provisions of the Packer Control act was requested in an estimate transmitted to Congress by President Harding. The amount, the President's communication said, would be adequate for enforcement of the law until June 30, 1922.

TRAPPED IN BURNING HOTEL.

Many Injured When They Leap From Windows.

Macon, Ga.—Fifty persons were reported trapped in a fire which threatened to destroy the Brown House, a hotel in the center of the business district here. Others are reported to have been injured by jumping from the fourth and fifth stories of the structure, which was set on fire by the explosion of a nearby gasoline filling station.

SATISFACTORY PACT ON RUSSIAN RELIEF.

Washington. — A satisfactory agreement has been reached with the Soviet authorities at Riga under which the American Relief Administration will begin immediately to fight famine among the children of Russia, Secretary Hoover announced. The agreement, he added, accepts the conditions laid down by the American organization for safeguarding the lives of relief workers and insuring American control of food supplies.

While the negotiations have come to a successful conclusion, the Secretary explained, it may be a day or two before a formal agreement is signed. Important details, such as means of transportation and location of serious famine areas, remain to be worked out, he said, before the final document is drafted.

TAX MEASURE PASSED BY HOUSE

3 Democrats Vote For It and 9 Republicans Aganist

ONLY SLIGHT PARTY SPLIT

Further Action To Await Recess—Revision In Number Of Details Expected In Upper Branch.

Washington.—The tax revision bill of 1921, estimated to cut $818,000,000 from the nation's tax burdens by 1923, was passed by the House, 274 to 125, on an almost straight party vote.

Three Democrats supported the measure and nine Republicans voted against it.

Democrats voting for were: Campbell, Pennsylvania, and Dupre and Laxaro, both of Louisiana Republicans voting against the bill were: Beck, Wisconsin; Clague, Minnesota; Keller, Minnesota; Lampert, Wisconsin; Michaelson, Illinois; John M. Nelson, Wisconsin; Sinclair, North Dakota; Voight, Wisconsin; Woodruff, Michigan. Representative London, Socialist, New York, voted against the bill.

The Republicans supporting it were: Andrews, Nebraska; Barbour, California; Beck, Wisconsin; Browne, Wisconsin; Burke, Pennsylvania; Burtbess, North Dakota; Cable, Ohio; Christopherson, South Dakota; Clague, Minnesota; Cooper, Wisconsin; Davis, Minnesota; Dowell, Iowa; Frear, Wisconsin; Gahn, Ohio; Gorman, Illinois; Hoch, Kansas; Hull, Iowa; Keller, Minnesota; Kelly, Pennsylvania; Ketcham, Michigan; King, Illinois; Kleczka, Wisconsin; Knight, Ohio; Kopp, Iowa; Lampert, Wisconsin; Little, Kansas; Luce, Massachusetts; Michaelson, Illinois; Murphy, Ohio; A. Chief Changes In Law.

The principal changes in the present tax levies made by the bill as passed include:

Repeal of the excess profits tax.

Increase of the corporation income tax from 10 to 12½ per cent., effective next January 1.

Repeal of the income surtax rates from 62 per cent. to 65 per cent., inclusive.

Increased exemption to heads of families, effective as of January 1 last, to $2,500 for incomes not in excess of $5,000 and additional exemption for dependents to $400 from $200.

Repeal of the tax on life, fire and marine insurance policies and imposition of the corporation tax of 12½ per cent. on all such insurance companies, except fraternal, effective January 1 next.

Repeal of the transportation taxes, effective January 1 next.

HOWARD C. WIGGINS DEAD.

General Counsel For Order Of Royal Arcanum.

Rome, N. Y.—Howard C. Wiggins, general counsel for the Royal Arcanum in North America and for many years prominently connected with the order, is dead at his home here. He had been supreme regent of the organization in the United States and Canada grand regent of the Grand Council of the State of New York.

MEXICAN KILLS OFFICER.

Los Angeles, Cal.—Under Sheriff Kelly, of Venturax county, was shot and killed and Sheriff A. D. Martin, also of Ventura, was seriously wounded when they attempted to arrest a Mexican at Owensmouth, Los Angeles county. The Mexican escaped.

KILLS BABE AND HIMSELF.

Murderer Married Man But Estranged From Wife.

Webster, Mass.—After shooting and killing Mrs. Katherine Kluza, 38 years old, a widow, and her three-week-old child in the Kluza home here, George W. Nichols, 43, turned his weapon upon himself and committed suicide. The three bodies were found by the police a short time later. Nichols was married but estranged from his wife.

MOB STORMS JAIL FOR NEGRO

Knoxville Mob Fired On By Deputy Sheriffs

ACCUSED BY WHITE GIRL

Women Hit By Bullets—Tennessee National Guardsmen Fail To Open Fire On Attacking Party.

Knoxvile, Tenn. — Twenty persons were wounded, two seriously, when deputies guarding the Knox county jail fired on a crowd which had crossed a deadline with the purpose of demanding Frank Martin, a negro, held as a suspect in criminal assault upon a county school teacher.

All of the wounded are white. Two are women. Deputy Sheriff Charles Lewis was wounded in the arm by return fire from the crowd.

Although the machine gun company of the 117th Infantry, Tennessee National Guard, was on duty at the jail, the soldiers did not fire.

Following reports that the school teacher had identified Martin as her assailant, crowds gathered in the vicinity of the jail, which was guarded by national guardmen and soon started down the hill on Main street leading to the jail. They were turned back twice by police.

Gradually almost 200 men and boys approached the jail, while several hundred other persons, many of them women, in the court house yard looked down upon the scene. As they came within 100 feet, Sheriff Cate stepped under an arc light and demanded that they disperse. He gave warning that an imaginary line between two telephone poles should not be crossed.

As a dozen men passed these poles, the sheriff picked up a shotgun and fired over the heads of the crowd into the air. Four deputies who were with him then fired two volleys.

Two men in the courthouse yard and two or three in the street fired revolvers in reply.

The shooting then became general, deputies firing rapidly.

Many of the loads of buckshot fired by the officers and intended to go above the heads of the crowd in the street went among spectators in the courthouse yard. Some of the injured also are suffering from pistol and rifle wounds.

In the court house scores threw themselves to the ground to escape the hail of bullets coming in that direction, while the crowd in the street ran back, panic-stricken, and the deputies charged, firing over the heads of the crowd and driving all of them back to Gay street, a block from the jail.

MAY FIGHT ANSELL VERDICT.

Republicans Discuss Plan To Protest Majority Bergdoll Report.

Washington.—A political battle in the House appears probable as a result of the majority report of the committee investigating slacker Grover Bergdoll's escape, in which Samuel T. Ansell, former acting judge advocate-general, and others were denounced for alleged responsibility.

Republican leaders are considering action to bring about rejection of the majority report, written by Representative Johnson, of Kentucky, Democrat, and adoption of the minority report, written by Representative Peters, of Maine, chairman of the committee. The minority report absolved Ansell of any conspiracy in the escape.

$75,000,000 ROAD BILL.

Senate Lopped $25,000,000 Off House Measure.

Washington.—The Federal-Aid Roads Bill, appropriating $75,000,000 for construction, one-third of which would be immediately available, was pased by the Senate. The balance of the general fund would be available in six months.

The bill as passed by the House carried $100,000,000, and it now goes to conference. It places Federal aid under the Secretary of Agriculture, who may expend not more than 60 per cent of the appropriation upon interstate roads and the remainder upon intercounty roads. A sliding scale is provided for Federal aid in States with unappropriated public land.

BURNS CALLED INTO SERVICE.

Chosen By Attoreny-General Daugherty To Head Department.

Washington.—Appointment of William J. Burns to head the Bureau of Investigation of the Department of Justice was announced by Attorney-General Daugherty.

Burns succeeds William Flynn, who took charge of the Bureau soon after the Wall street bomb explosion in New York.

TWO DROP TO DEATH.

Pilot and Passenger Killed In Plane Crash.

Preston, Minn.—Pilot Herbert Riebe, 27 years old, and R. C. Bright, his passenger, were killed in a 2000-foot fall in an airplane here. Riebe was a commercial flier of Rochester, Minn., and Bright was owner of a string of motion-picture theatres.

WILL ASK EXTREME PENALTY.

This Would Mean Year In Prison For Rickard.

Chicago.—The maximum penalty of a year in prison and $1000 fine will be asked for "Tex" Rickard, boxing promoter, when he appears before Judge Landis to plead to a charge of violating the Federal law prohibiting the interstate shipment of prize-fight films, Federal officials said. The evidence will be presented to the grand jury on Monday.

SILK SHIRT BAN LIFTED.

Ossing, N. Y.—"Them that has 'em can wear 'em."

This word, referring to silk shirts, was passed along the corridors in Sing Sing Prison, bringing joy to some inmates and gloom to others. The radiant garment worn previously by those who could afford them were taboo recently when the poorer inmates grumbled at the unequal display and requested "Cotton for all." The State's short cotton shirt supply interferred with the program, however, and a few weeks' grace was granted to the lovers of brilliant hues.

NEW ALLIANCE NOW SUGGESTED

Would Have America Become Party to Anglo-Jap Alliance

CAN'T TURN BACK ON TOKIO

Seeking A Middle Course—Declares Program Outlined Would Be Guarantee For Peace Of World.

London.—"If the alliance with Japan could be merged into a greater understanding with Japan and the United States on all the problems of the Pacific that would be a great event, and it would be a guarantee for the peace of the world."

Thus spoke David Lloyd George, the British Prime minister, before the House of Common in outlining the work of the recent conference of the imperial premier.

The Premier was dealing specifically with the Anglo-Japanese alliance at the time, and explaining how the conference had unanimously recognized that Japan loyally had carried out her obligations to Great Britain during the war, in letter and in spirit.

Mr. Lloyd George asked if it was to be suggested that Great Britain now should turn her back upon Japan with a mere "thank you" and "good-by" after Japanese aid had proved one of the turning factors in the war, in that it had given protection to the transit of Dominion and India troops across seas. Even countries disliking the Anglo-Japanese alliance would despise the British if after such services Great Britain turned her back upon Japan he declared.

The Premier said he saw no reason why it should be impossible to remember obligations to Japan and at the same time preserve a spirit of fraternity with the United States.

It was a cardinal principle of British policy, the Premier continued, that Great Britain should act in as complete accord with the United States as possible. He did not know of any country in the world with whom it was more important to act in concert. He declared that the surest way to make a success of the disarmament conference was first to reach an understanding on Pacific questions, and he hoped his view in this respect would be taken at the Washington gathering.

BARE BOAT SYSTEM.

Ship Board Head Decides Operators Must Share Losses.

Washington.—Decision to substitute a "bare boat" charter for the system under which practically all Shipping Board vessels are now operated was announced by Chairman Lasker, after a conference with President Harding. Instead of the boats being turned over to operators on a 5 per cent. commission basis it is the board's intention to adopt a uniform charter under which its vessels will be leased on a tonnage basis, the lessee assuming the same risks of profit or loss as he would under the routine commercial charter.

ANGER KEEPS BUTCHER WARM.

Locked In Ice Box With Glass Door, He Sees His Cash Stolen.

New York. — August Kirsch, a Brooklyn butcher, might have frozen when a robber forced him into his own ice box and locked the doors but for the fact that the box had plate glass doors.

These enabled Kirsch to see the thief calmly looting his cash register, and the robbery and his helplessness made him so hot that he did not even catch cold through his enforced imprisonment. An hour after the robber had departed a customer set the butcher free. Later he caused the arrest of Walter Stutterheim as the bandit, and the prisoner was held to the Grand Jury.

PROMINENT PUBLISHER DIES.

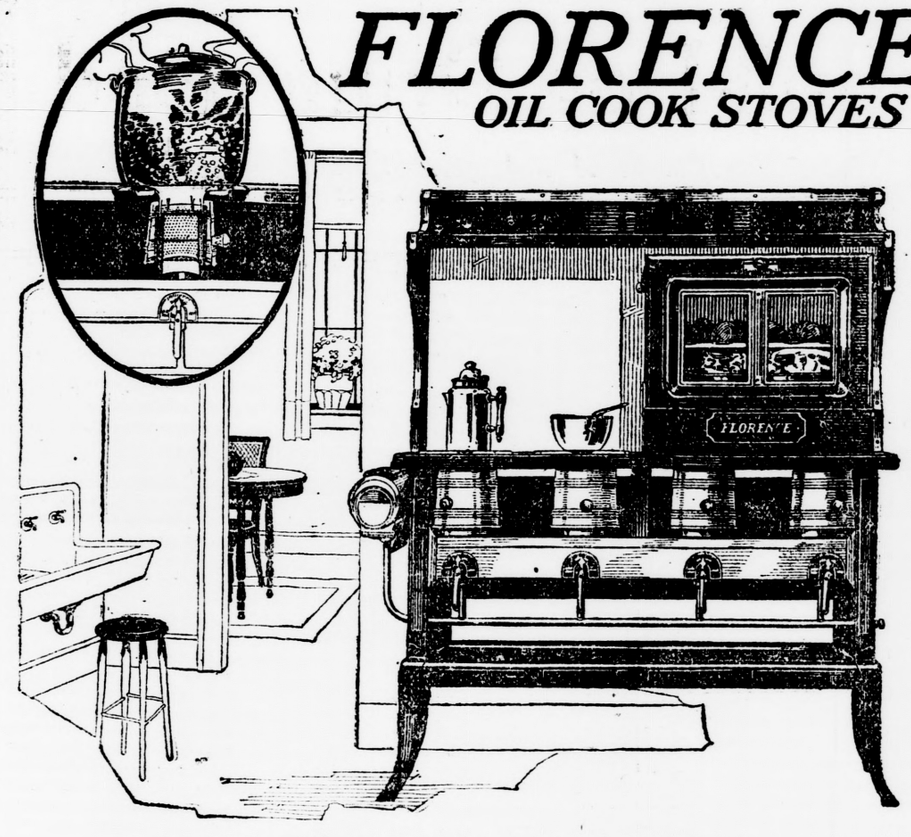
J. S. Crowell, Former Owner Of Woman's Home Companion.

Cincinnati, O.—J. S. Crowell, former owner of the Crowell Publishing Co., Springfield, O., publishers of the "Woman's Home Companion" and Fireside," died in a hospital in this city. He had been ill with cancer for many months.

HARDING TO TALK IN VIRGINIA.

Will Speak At William And Mary College And At Yorktown.

Washington. — President Harding has promised to deliver an address at William and Mary College, Williamsburg, Va., October 19, and on the same day probably will attend a centennial celebration at Yorktown, Va. Tentative plans are for a trip down the Potomac to Yorktown on the yacht Mayflower.



FLORENCE
OIL COOK STOVES

More Heat
Less Care

EASY to cook with, easy to control, and easy to keep clean—that's the story of the Florence Oil Cook Stove.

Burns kerosene. No wicks, no valves. Cooks, bakes, roasts, and does it evenly and thoroughly. Powerful burners direct the intensely hot blue flame close up under the cooking. The heat is automatically controlled by turning the lever handles.

The Florence Portable Oven has a baker's arch that throws the heat to all parts of the oven. We are always pleased to show you why the use of the Florence Cook Stove and Oven means more heat and less care.

NAVY SECOND TO NONE

THE New York Journal of Commerce, which some people believe to be too friendly to British interests, views with equanimity the vote of the British House of Commons to add four new battle cruisers to its navy at a cost it is reported, of $150,000,000. "The British Government wishes it understood that it is not increasing its fleet," says the Journal. "These will simply replace out of date vessels and re-establish British naval superiority in 1925."

It seems that the British naval authorities are quite sure that it would not be safe to suspend construction for a year, as it would put England too much at a disadvantage.

"Possibly it would," says the Journal "the question is rather for naval experts than for statesmen and philanthropists." And then comes this naive suggestion from the Journal: "But the United States—might we not suspend naval construction? Our present navy is formidable; it is second only to the British."

Isn't it nice to have such suggestions from so disinterested a friend? It is a very simple little trick for Great Britain to remove from her first navy line a few powerful vessels, demote them to the second line, and fill their places with new units. This could be kept up indefinitely under the specious plea that Britain was not extending, simply keeping up to date, her navy.

But the United States will take no action toward disarmament prior to the disarmament conference and the rules which that conference may lay down. And our Rule Number One on entering the conference should be that whatever program may be adopted, our navy shall be second to none.

STARTING BUSINESS

A HOTEL proprietor at Brighton Beach, N. Y., has taken "economic law" into his own hands and reduced his food prices as much as 60 per cent. and now he announces "that it was not only a just but a highly profitable step for any restaurateur to take. Since the cut was made the volume of his business has more than doubled. It is a pity his example is not followed by other people. Increased production and smaller profits per unit would soon set the country humming and give plenty of work to those now out of employment. If we have but the will to do it, the way will follow.

Same Old Story But a Good One

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentary). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Oyster Season Near

Oysters promise, according to shippers, to be cheaper than last year. The oyster season opens on September 1, and reports from the grounds indicate unusually large crops of good quality bivalves. The cove oysters will be the first to come into this market.

For the first time last year for many years the cove oyster beds worked from September steadily through to June. This was due to the mild winter, which kept the beds from freezing.

The ready supply of cove oysters shut out almost entirely shipments from the South and East. This resulted in keeping prices up. A heavy winter this year means the entrance of the Eastern and Southern oysters and lower prices. Regardless of that, shippers have decided to cut prices anywhere from $1 to $1.25 a thousand.

Many Seek Employment

Between 800 and 1000 jobless men besieged the sites of the proposed marine terminal and the new public library in Wilmington, Wednesday, as a result of reports that construction was to begin at once. Large forces of police were required to handle the crowds, who were almost desperate in their anxiety for work. The duPont Engineering Company, in charge of both projects, announced that applications for employment on the harbor site would be received as soon as a temporary office is put up. Work on the library, it was stated, will begin as soon as possible.

Hot Weather Diseases

Disorders of the bowels are extremely dangerous, particularly during the hot weather of the summer months, and in order to protect yourself and family against a sudden attack, get a bottle of Chamberlain's Colic and Diarrhoea Remedy. It can be depended upon. Many have testified to its excellence.

Fordson TRACTOR

Do More in a Day— Do It Better

One man with a FORDSON TRACTOR can do more work easier and with less expense than two men can do with horses. This means that you with a FORDSON TRACTOR can actually raise more crops, with less work and less expense. And this means that your profits will be greater with fewer hours of work.

Besides the FORDSON will take care of every power job on the farm. It is light, alert, flexible in control and operation, yet it has power and endurance to spare.

You should see the FORDSON at work to appreciate its wonderful capabilities. We will gladly give you the proofs if you will ask for them, either by a personal call, phone or post card.

The Household Tyrant

By MURIEL BLAIR

(©, 1921, by McClure Newspaper Syndicate.)

"I've stood it for thiry years and I reckon I can last out, now I've got so far," was the homely way in which Ezra Dockrill put it.

"There's no need," insisted his old-time friend, Greg Parsons. "Be sensible, Ezra, and take an old comrade's advice. Melinda Dockrill, your wife, is the very best housekeeper in Carlton, and nobody disputes it. She tends her house and minds her own business so far as her neighbors are concerned, but she has been hard, terribly hard on you."

There was a good deal of sense and reason to what both men said, and despite Ezra's weak explanations their point of view was practically identical. Ezra was beginning to get the reputation of being henpecked, and his excellent wife, excellent in some ways—had degenerated into a scold. Melinda Dockrill was fast growing into a household tyrant. When Walter Maywell came courting their pretty daughter, Flora, She opposed the match tooth and nail. When just now some old Spanish American war comrades of Ezra wanted him to go over to Pelham to a reunion, she hid his old uniform, kept him awake two nights lecturing him on the perniciousness of wasting his time, and flatly refused to allow him to even march to the depot with his friends.

That might have been well enough, for, as said before, Ezra was meek, patient and a self-sacrificing sort of man. Right on top of this decision of the masterful Melinda, however, there was a scene in the household that appealed to another side of Ezra's nature. Young Maywell had come to Mrs. Dockrill in a frank, manly way to ask permission to marry Flora. She had put her husband aside in the discussion without even consulting him. The result was that poor Walter went about town, a dejected reproach to the kind-souled Ezra, and poor Flora mourned till all the happiness seemed gone out of her life That evening Ezra came down to the Parsons home.

"See here, Greg," he said, "we were talking about Melinda today."

"Quite right, Ezra; what about it?"

"Why, just this—I've been thinking over what you said."

"About time, should say," responded Parsons.

"I don't care for myself. I can stand Melinda's peculiarities. That poor girl of mine, though, and young Maywell—she's set them grieving their hearts away with her stubborn ways and it isn't right, it isn't right!" and Ezra broke down.

"Ezra," said Parsons very seriously. "If you will follow out my directions I'll guarantee to cure your wife of her tantrums in a week."

"Greg," responded Ezra, grasping the hand of his old-time friend fervidly, "you do just that and I'll give you those old war relics of mine you've coveted so long. What am I to do to help you?"

If Ezra Dockrill was mystified as to the plan of his friend, his erratic helpmeet had clear hysterics when she found he had defied her authority and had gone to the reunion. She rushed down to the Parsons home, enraged, then anxious, and finally alarmed.

"I've got a sort of doleful story to tell you, Melinda," said her old friend. "I'm afraid Ezra has broken the traces. It's like a horse checked up too high. Give him the chance and the critter'll sprint."

"Why, what do you mean? Surely nothing serious has happened to Ezra?" cried Mrs. Dockrill, a quick catch in her voice.

"It's the warlike spirit, you see, Melinda," explained Mr. Parsons. Everyone is talking about the Mexican war. Why, there were lots of the old soldiers just wild to enlist. Ezra is a brave man. The war spirit got him. They were recruiting at Pelham. If he's joined the army again he'll make his mark."

It was there that Mrs. Dockrill broke down. "Tell you now," observed the specious Parsons, "I might have a little influence with the adjutant general, and Ezra, too, if he really has enlisted. You've got to promise concession. His heart is set on Flora and young Maywell—"

"I'll agree! I'll agree!" interrupted Mrs. Dockrill vehemently. "Only get my dear husband back and he'll never have to complain of me again."

She passed a sleepless night. When that precious old schemer, Parsons, presented her husband the next day at noon, Melinda threw her arms about the neck of her prodigal spouse, and Parsons sneaked away feeling quite mean for giving so hard a lesson to a deserving though at times somewhat contentious woman.

WIT AND WISDOM

A bad thing is dear at any price.

A bad husband cannot be a good man.

If you owe nothing, you know what you are worth.

There are always more foolish buyers than sellers.

IT HAS BEEN SAID

Gold is never so pure that it cannot corrupt.

He who promises too much is already in debt.

Across the abyss of despair there is but one bridge, and that is faith.

When opportunities go begging it is men that need charity.

Idleness has many aliases; one of them is leisure.

YOUNG GIRL FINDS RELIEF

Wants to Tell Other Girls All About It

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not now sick or drowsy. I have told many girls about your medicine and would be glad to help anyone who is troubled with similar ailments. You may use my testimonial as you like."—STELLA LINXWILER, 6 Second St., Evansville, Indiana.

Some girls lead lives of luxury, while others toil for their livelihood, but all are subject to the same physical laws and suffer in proportion to their violation. When such symptoms develop as irregularities, headaches, backaches, bearing-down sensations and "the blues," girls should profit by Miss Linxwiler's experience and give Lydia E. Pinkham's Vegetable Compound a trial.

Fiction is falsehood done in colors.

Cuticura Soothes Baby Rashes

That itch and burn with hot baths of Cuticura Soap followed by gentle anointings of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere.—Advertisement.

The girl who is chummy with her father and brothers hasn't much to fear from other men.

Stop That Backache!

Those agonizing twinges, that dull, throbbing backache, may be warning of serious kidney weakness—serious if neglected, for it might easily lead to gravel, dropsy or fatal Bright's disease. If you are suffering with a bad back look for other proof of kidney trouble. If there are dizzy spells, headaches, tired feeling and disordered kidney action, get after the cause. Use *Doan's Kidney Pills*, the remedy that has helped thousands. Satisfied users recommend *Doan's. Ask your neighbor!*

A Virginia Case

Frank E. Roat, blacksmith, 107 S. Payne St., Alexandria, Va., says: "My back was weak and lame and I could hardly bend over or straighten up. I also had bad headaches. Nights I had to get up often, and when morning came I was all tired out. I used Doan's Kidney Pills and my kidneys acted regularly again and I got wonderful relief from the pains in my back."

Crimson Clover

For Winter and Spring Grazing —To Put Humus in the Soil

A crop of crimson clover plowed under is worth $20 to $30 in increased productivity. It adds humus without which the soil is like a little barrel and a leaky one at that. A field in which crimson clover is sown, absorbs moisture like a sponge, gives rains from below when there are none from above. It is an excellent winter and spring grazing crop—makes the best of early green feed and good hay. Get your supply now of

WOOD'S SEEDS

Plant some of Wood's Hairy Vetch—a wonderful nitrogen gatherer and soil improver—thrives even upon poor lands—gives prodigious yields of best forage and hay—reseeds itself—stands cold winters—saves on the fertilizer bill—prevents leaching.

Grain Pasture Mixture

Grows quick and provides winter and spring grazing—composed of best grazing varieties of wheat, winter rye, winter barley, turf oats, vetch, rape and Arctic grass. Nothing better for a quick-growing one season pasture.

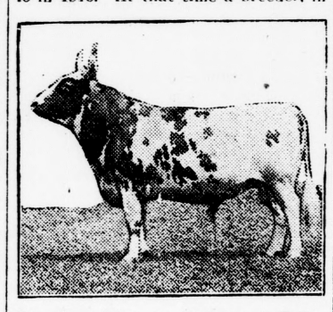
Acted as Wedge to Stimulate Dairy Interest and Promote Better Methods in South.

(Prepared by the United States Department of Agriculture.)

An example of how bull associations, organized through the help of the United States Department of Agriculture, act as a wedge to stimulate dairy interest and promote better dairy methods in a community is illustrated by the work which has been done in Spartanburg county, S. C. Five years ago little dairying was done in this county, according to dairymen of the department, but now the industry is making rapid progress and up-to-date methods are being practiced largely as a result of the organization of a bull association.

The interest in dairying dates from the beginning of the purebred bull movement in the vicinity of Campobello in 1916. At that time a breeder, in



The Best Way to Improve a Dairy Herd Is by the Introduction of a Purebred Sire.

the hope of starting an interest in better stock and creating a demand for his animals, presented a purebred bull to the community. Little interest was taken, and the gift was accepted with reluctance. The community was made up of small farms and there were few cows.

Following this a dairymen's picnic and exhibition of live stock was held, and as a result of extension work carried on by the dairy division of the department in co-operation with Clemson Agricultural college more people became interested and bought cows. In 1917 a co-operative bull association was organized, from which developed a live stock show, and the members of the association developed a keen interest in comparing the dairy animals they raised.

Another show was held in 1920, at which prizes, offered by merchants and bankers consisting of cash, merchandise, and savings accounts were awarded. One of the features of the show was a program of short talks on local problems by the county agent, leading farmers, and representatives of the commercial club and the State Jersey Breeders' association. As an indication of the interest that was aroused those attending the show voted unanimously to hold a community fair next fall, to include not only dairy stock but other agricultural products.

SPRAY TO KEEP FLIES AWAY

Best Time to Apply Repellent Is in Morning After Milking or Early in Afternoon.

To keep cows quiet and contented they should be sprayed to keep flies off. A good time to spray is after milking in the morning and before milking time in the afternoon.

With a portable cart, made from a half barrel by attaching wheels and a spray pump and nozzle, two men can spray 40 cows in five minutes. Thirty gallons of mixture will spray 40 cows twice a day for 10 days.

Formula: 4½ quarts coal tar dip, 4½ quarts fish oil, 3 quarts coal oil, 3 quarts whale oil and 1½ quarts oil of tar. Dissolve 3 pounds laundry soap in water, add the above ingredients and bring the whole up to 30 gallons with lukewarm soft water.

PUREBREDS REPLACE SCRUBS

Nothing but Registered Sires Being Used at the Louisiana State Normal School.

"Within the past ten days we have sold to the butcher five scrub cows. We are now keeping only high grades and purebreds." With this explanation an official of the Louisiana State Normal school in Natchitoches parish enrolled in the "Better Sires, Better Stock" movement conducted by the United States Department of Agriculture and the various states. All the live stock on the school farm, which includes cattle, swine and poultry, are being bred only to purebred sires

BEST TIME TO SELECT CALF

If Dam Is Wide, Deep-Bodied Cow Giving Liberal Supply of Milk Useful Animal Is Assured.

The best time to select a cow is at a few months of age, when it may be seen with its mother, or, at any rate, before it is weaned. Observe the calf's mother. If she is a wide, deep-bodied cow with plenty of size and is giving a liberal supply of milk, you may be reasonably sure that the calf, if sired by a good bull and properly cared for, will grow into a useful breeding animal.

Keep Cream and Milk Cool.

Cream and milk keep better where good ventilation and clean conditions are provided, since souring is the result of the entrance of certain bacteria into the milk.

Forced Feeding Favored.

Forced feeding gives the best calves and makes the greatest gains and profits.

Cows Must Be Fed.

Feed the cows if you wish them to feed you.

LESSON FOR AUGUST 28

FROM ASIA TO EUROPE.

LESSON TEXT—Acts 16:6-18.

GOLDEN TEXT—And they said, believe on the Lord Jesus Christ, and thou shalt be saved, and thy house.—Acts 16:31.

REFERENCE MATERIAL—Rom. 15:15-21.

PRIMARY TOPIC—A Wonderful Dream.

JUNIOR TOPIC—Paul Crosses Over Into to Europe.

INTERMEDIATE AND SENIOR TOPIC—Beginning Work on a New Continent.

YOUNG PEOPLE AND ADULT TOPIC—Paul Carries the Gospel to Europe.

I. Forbidden by the Holy Spirit to Preach the Word (vv. 6-8).

We have here a lesson on divine guidance. The inclination of Paul and his companions was to tarry in the provinces of Asia preaching the word, but contrary to their inclination they were hurried along. There were many people in Asia yet who needed the Gospel. They might have reasoned "What difference would it make as to where we preach, just so the Gospel is preached?" Though seemingly small, the question as to whether the Gospel should be preached among the people in the East or in the West has determined the entire history of the church. Had they preached among the people in the East, Christianity would never have become worldwide. On the other hand, by laying hold upon the Grecian intellect and combining with it the push and energy of the Romans, it became worldwide. In the guidance of the Spirit we find Him just as active and as faithful in closing doors as in opening them. "The stops as well as the steps of a good man are ordered of the Lord." We ought to act truly recognize God's hand in the "shut-ins" as well as in the "open-outs."

II. Called to Macedonia (vv. 9-12)

Being now hemmed in on all sides, a vision was given to Paul of a man from Macedonia pleading for help. This was the solution of the mystery of closed doors about them. There is a negative and a positive side to the Spirit's guidance. If we will note both we shall be able to determine with a surety the proper course of action. In order to be led aright we must be sure that we are willing to be led, pray definitely for leading, and then render willing obedience as fast as the light comes. As soon as the divine way was known they rendered immediate obedience.

III. The First Convert in Europe (vv. 13-15).

The missionaries went to Philippi and spent several days studying the conditions there. The Jewish element in this city was very insignificant; so much so that they could not afford a synagogue; therefore the devout people were accustomed to worship at the river side. To this humble gathering Paul came and preached to the women gathered there. A certain woman from Thyatira believed his message, and was baptized. The work of the Lord had a very humble beginning, but it was destined to transform all Europe and the world. Lydia was a woman of wealth, culture, and wide experience, and yet she had need of Christ. The steps in Lydia's conversion are worthy of note:

1. Attendance at the place of prayer (v. 13). This is the case with most people who are saved. The Spirit of God puts it into the hearts of the people to come to the place of prayer.

2. Listened to the preaching of the word of God (vv. 12-14). The instrument used by the Holy Spirit in the conversion of sinners is the word of God. "Faith cometh by hearing, and hearing by the word of God" (Rom. 10:17).

3. Her heart was opened by the Lord (v. 14). Regeneration is a supernatural work. When the Gospel is preached the Spirit of God makes it living and active, opening the sinner's heart for the reception of Christ.

4. She was baptized (v. 15). It is natural for the one who believes in Christ to desire to be baptized.

5. Her household also believed (v. 15). Thus we see that her's was a typical conversion.

IV. A Spirit of Divination Cast Out (vv. 16-18).

As the missionaries went out from day to day to the place of prayer they were accosted by a young woman possessed by a spirit of divination. She was owned by a syndicate of men who derived large gains from her soothsaying. This act of the woman became a great annoyance to Paul who, in the name of Jesus Christ, commanded the evil spirit to come out. Here is a case of a spiritual medium, a fortune-teller, being freed from demoniacal possession. Many men today are making money by the degradation of womanhood, and they resent all efforts to destroy their infernal business, even try to destroy those who interefere with their business. Here as everywhere Satan blocks the way as the Gospel of Christ is carried into new fields, but the Lord is again triumphant.

Spirit of God in the Church.

There may be some who ask, "Does the Holy Spirit fill the church today and transform the hearts and lives of men as He did in the days of the Apostles? Yes He does, when the people of the churches become more anxious for the gift of the Spirit than for outward showing, when the most earnest prayers are uttered for the giving of the Spirit of God. In our devotion to organization, and clubs, and guilds, we sometimes forget the need of the Holy Spirit. And yet we know that souls are not saved by clubs and societies, and concerts, and by moving pictures at the evening services, but by the presence of the Spirit of God in the church, in both pastor and people.

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Children Cry For Fletcher's CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

Conservation.

"What is Canada doing? What are Canadians doing to stop this fearful waste of our country's precious lumber?" cried the fervent orator. "Is there one Canadian here who can truthfully tell me he is doing anything at all to save our forests from depletion?"

Gravely the little man in the front row rose with upheld hand.

"What! Is there actually one?" exclaimed the orator, "and what, may I ask, are you doing to save our lumber?"

"I," said the little man solemnly, "always use a toothpick twice."—Toronto Telegram.

Foul Jerusalem Cisterns.

The reservoir built by Pontius Pilate 2,000 years ago, 13 miles south of Jerusalem, has been enlarged to hold 5,000,000 gallons of water. Before this engineering work, the Holy city was dependent upon local rainfall for its water. Some of the cisterns in which the rain was collected had not been cleaned for 100 years or more.

ALL PAID TRIBUTE TO GUEST

And by No Means Least Were the Words of Praise Uttered by Grandmother.

In New England they tell of a pastor who had boarded for so long with a certain family that when he was called to new fields of labor that family felt his loss keenly.

"The best pastor we've ever had in this town," said the head of the family. "I don't expect to see his equal again."

"Such good company," said the wife, "and so sympathetic if the least thing went wrong."

"He was the easiest man to cook for I ever knew," said the maiden aunt. "He was always satisfied with what he had and never grumbled."

"He had such a nice disposition," said one of the younger members of the family.

While grandmother, in her corner by the fireplace, shook her head dolefully as she added her tribute of affection.

"I'll miss him dreadfully," she observed. "He was the best hand at ketchin' moth millers that ever I did see."—Philadelphia Ledger.

Facilitated Melting of Snow.

Automobile highways which cross the Sierra Nevada mountains of California are usually closed to traffic as late as June on account of the slow melting of the deep snow which covers the higher levels. In order to accelerate the melting of the snow and thus to expedite the opening of the highways, the experiment was made this spring of scattering black soil and ashes on snow which covered the highways. As a result of the increased absorption of solar heat the snow melted rapidly, and the roads were opened several weeks earlier than would otherwise have obtained.
